“ I have such great memories created with Betty. I always get a kick out of the time Betty went to Tuscan with mom and I and we learned pretty quickly that Betty liked to shop. Betty would spend as much time as we would allow going up and down each aisle of the convenience store! I swear she would touch everything! I quickly learned we had to give her a time limit each time we stopped! Oh how I am going to miss this woman who I considered a second mom.
