“ I didn't personally know her. I just saw her story on A&E. I also deal with pain in my legs, joints, hands and back. I can't get straight answers from Doctors. I hate taking strong meds. Just like Brooke I feel as if I am just a shell of who I used to be. She gave me hope. She gave many hope. Honor her memory. Her mistakes could help save someone. Thank you Brooke for your impact on so many.

“ I have never had the pleasure of meeting Brooke in person but I am familiar with the battles that she faced thanks to A & E. I have fought similar battles Brooke was an inspiration to my recovery. I would not be here today had I not gotten my act together. Thank you, Broooke, for being such a great inspiration. The world became a dimmer place the day you passed. :(Thinking of you and your family.... Rest in peace, beautiful.

“ While my interaction with Brooke is limited to seeing her on A&E and exchanging a few messages with her on Facebook, her memory has stuck with me even though I was a complete stranger to her. I really wish I could have known her.

“ From the song, "No More Night" by David Phelps

*The timeless theme, Earth and Heaven will pass away.
It's not a dream, God will make all things new that day.
Gone is the curse from which I stumbled and fell.
Evil is banished to eternal hell.*

*No more night. No more pain.
No more tears. Never crying again.
And praises to the great "I AM."
We will live in the light of the risen Lamb.*

I was so sorry to hear about Brooke's passing. I also live with chronic pain and I have learned so much from Brooke's experience on Intervention and also afterward as I was in touch with her in California. I'm sure she has positively touched more lives than we will ever know.

All my prayers to her family.

“ Brooke's family is in my heart & prayers and wondered if you could pass on a message for me. Just wanted to let you know, my parents saw the episode of Brooke on Intervention & said it was like looking in a mirror at their daughter. I too have RA & was addicted to Soma & hydrocodone. I joined Brooke in California & was in treatment with her. She was a beautiful girl and I am so sorry to hear she passed away. I just wanted her family to know that in this loss, Brooke's story got me on the road to recovery & I am here today with my family partly because of her. She helped others overcome & I am grateful for your family sharing her story. I now have 2 amazing beautiful children & I don't know that I would be here today had that episode not aired. My thoughts, love, & prayers are with you. KJ

“ I am lighting a candle for Brooke and sending my deepest sympathy for her family. See I have rheumatoid arthritis. I felt alone when I was diagnosed and felt that no one understood what I was going through. I felt anger and frustration trying to understand how this happened to me. Then one evening I was watching TV and saw a episode of intervention. I saw that there were others like me . Others in pain and struggling to understand. Brooke gave me hope to see there are others like me and that this disease does not discriminate. I saw here get help and say I need help and I can't do this on my own. Which helped me say the same. Fly with the other angst Brooke and know you helped many.
