“ *My Dad could always be seen wearing his Korean War veteran hat. He was proud of his service in Korea and to his country. He enjoyed the outdoors all his life. My Dad was a dedicated father and an inspiration to me for engineering and the love of the outdoors. He was a smart man, self educated and could do anything. He loved science, technology and learning new things. He enjoyed building and growing things as an outlet for his creativity. He always met a friend and was willing to help anybody. He was involved in his community and worked to make it a better place for everyone. To me, He was my mentor, my hunting buddy and friend for decades. I love my Dad and I miss him deeply.*
